

ORCHARD'S TALE TOLD IN COURT

Man Who Confessed He Killed Steunenberg On
Witness Stand In Haywood Trial.

BEGINS BY TELLING HIS OWN NAME

Then Goes Back To Beginning Of The Western Mining
Troubles--Relates Setting Off Bomb That
Killed Two Men.

[SPECIAL TO THE GAZETTE.]

Boise, Idaho, June 5.—After several hotel keepers and clerks had testified to the presence of Orchard and Simpkins in Nampa, (where Orchard will say he went to kill Steunenberg) in the summer and fall of 1905, Orchard entered the courtroom under a strong guard and took the witness stand.

Orchard said he was born in Ontario and that his real name was Alfred Hawley. He became a member of the Western Federation of Miners in 1899.

Attorney Hawley took Orchard through a close examination taking

up the Coeur D'Alene mining troubles in 1899.

The defense objected to the introduction of evidence bearing on the Coeur D'Alene trouble but Judge Wood admitted the testimony.

This appears to settle the question as to the extent to which Orchard's testimony will be admitted.

Orchard told his story of the blowing up of the concentrator at Wardner in April, 1899, when two men were killed.

Orchard testified that Haywood paid him \$200 for blowing up the Vindicator mine and agreed with him for the other murders.

SWOOPED DOWN ON LOCAL PHARMACIES

Pure Food Inspector Larson Took
Samples of 13 nostrums
This Morning.

Rumor has it that he was looking for denatured and wood alcohol in the staple nostrums put up by the local pharmacists. At any rate H. C. Larson of Madison, member of the state pure food commission, descended upon all the Janesville drug stores this morning and purchased samples of 13 such combinations as spirits of camphor, laudanum and so forth. All of these he pocketed with a genial smile at the first place visited and as soon as he had departed the thoughtful pharmacist hastened to the telephone and announced his coming to all the other brethren engaged in the same line of business. The retailers express no anxiety whatever concerning the outcome of the analysis, as they sell nothing but pure goods all the time.

WHITEHEAD'S SPEECH ENDED HOPE OF THE CONVENTION

Rock County Senator Opposed The Calling
Constitutional Convention And
Won.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., June 5.—The senate today debated and killed the assembly resolution to submit to the people the proposition of calling a constitutional convention. The vote was 15 to 13. Senator Whitehead made the most effective argument of the session today in opposition to the constitutional amendment proposal. He declared that a little intelligent action by the legislature under present amendment system would answer to cure all the defects in the fundamental law complained of by those who demanded a general revision, and the relief would be secured more quickly. He showed that the constitution stands today in main as originally, that only a few of the 150 sections were changed, and that there was absolutely no call in his district for a revision, that the present amendment system is adequate to keep pace with the demands of the people and the changing of conditions. The assembly had a long debate on the public utilities regulation bill and defeated the democrat's proposal to have the common councils instead of the state railroad commission do the regulating and adopted the committee's substitute bill.

"And in what way, sir, haven't I given you satisfaction?" asked the clerk.

"In what way?" replied the employer, with a show of anger. "Do you think you are satisfying me in asking for an increase of salary?"

With all the harm that earthquakes do," said a rug dealer, "it is pleasant to hear of an entire town that an earthquake enriched."

The town I mean is Ouzoun-Ada, on the Caspian sea, the terminus of the Trans-Caspian and Samarkand railway. Fort Atkinson Creamery Package Co. Can Not Meet Demand for Products—Chance for Janesville.

(SPECIAL TO THE GAZETTE)

Fort Atkinson, Wis., June 3.—The demand for the one-hundred-gallon-hour automatic ice cream freezer invented by Theodore Valerius of this city, and manufactured by the Creamery Package Manufacturing company is steadily increasing. This new and wonderful invention has practically revolutionized the ice cream business and orders are coming in far beyond the capacity of the local plant to fill them. There is a prospect that a new factory will be started elsewhere to make these machines, and several other specialties that were invented here and really belong here. The chief difficulty in producing them here is the lack of good mechanics. Good men are engaged and come here and then finding it impossible to secure a home in the city throw up their jobs and seek work elsewhere. We understand that the management is considering the building of a new plant at Wayne, Ind., chiefly to make these freezers. There is plenty

The woodwork is quarter-sawed oak, finished in antique, heavy and ornamental in appearance, the whole department being similarly finished. The walls are covered with light brown burlap, having an upper third of panel paper joined with a moulding which corresponds to the rest of the woodwork as does also the chair rail that is placed about three feet from the floor. The ceiling is of steel and decorated in colors to match the sides. The grating and screen work are oxide metal, being perhaps as pretty as may be found in any bank. State Railroad Commission Makes Important Ruling in Janesville Case on School for Blind.

By issuing an order compelling the Chicago, Milwaukee and St. Paul Railroad company to switch cars of freight received at Janesville over the Chicago & North-Western road and consigned to the state school for the blind, two miles from Janesville, the state railroad commission of Wisconsin ruled in effect that one railroad must practically grant another the use of its terminal facilities, if it receives a reasonable compensation for the use of its facilities and such use does not prevent it from giving adequate service to its own patrons. The discussion is believed to have an important bearing on other cities in the state where similar discussions have been raised.

The order was issued on petition of Superintendent Harvey Clark of the school for the blind, who complained several months ago that the Milwaukee company had refused to switch to its track near the school cars of material shipped to Janesville from the northern asylum for the insane at Oshkosh over the North-Western road. The Milwaukee company replied that its spur running out near the school was not within the switching limits of its yards at Janesville, and contended that it handled the cars at anything less than distance tariff rates it would be equivalent to giving the North-Western road the use of its terminal facilities at Janesville. The company fought the petition principally on the ground that it could not be compelled to give a competing company the use of its terminal facilities.

The commission in its ruling discussed the question at considerable length and concludes that it has power to compel a road to switch cars of a competing company over its terminals under such conditions as those at Janesville and that at Janesville this service must be performed for \$2 a car.

MORE TRIPS WILL BE ADDED AS SPECIAL PRIZES NEXT
WEEK.

The names of all candidates for the honors and diamonds received up
to 6 o'clock next Friday evening will be published in next Saturday's issue.
See to it that the name of some friend of yours is in the list. Seven
nominations were sent in last evening within two hours after the first an-
nouncement was made, which is a very flattering indication of the popu-
larity anticipated for the venture.

You should do your part, the Daily Gazette will do the rest.
There are many society members in Janesville and many popular per-
sons in districts Nos. 2 and 3, and the coming week will probably see large
number of candidates in the field.

Would it not be a gracious thing to honor some lady or gentleman
friend or some deserving person in your favorite organization?

Think it over and then clip the ballot and vote at once.

VOTE BOTH OF THESE BALLOTS.

Don't delay the matter and you will feel better for having helped in
this small way.

It is the wish of the Daily Gazette that this contest will be the means
of rewarding in some degree at least the ones who shall be the most de-
serving of the trophies it offers.

If you are interested in the contest either for yourself or for a friend
and do not fully understand the contest plan, call up the contest manager,
who will fully explain and render any and all assistance possible.

Candidates compete only with those residing in their own district, but
are privileged to secure support and work for votes in any district.

District No. 1—Includes all territory lying within the corporate limits of
the city of Janesville.

District No. 2—Includes all territory lying outside the city of Janesville in
the north half of Rock county.

District No. 3—Includes all territory lying outside the city of Janesville in
the south half of Rock county.

WHERE THE PRIZES WILL GO AND WHAT THEY ARE.

In District No. 1—One handsome diamond ring to the lady, receiving the
highest vote and a fine solid gold watch to the lady receiving the sec-
ond highest vote. One handsome diamond ring to the gentleman, re-
ceiving the highest vote, and a fine solid gold watch to the gentleman re-
ceiving the second highest vote.

In District No. 2—One beautiful diamond, as a first prize, mounted either in a
ladies or gentleman's ring and a valuable solid gold watch, ladies or
gentlemen, as a second prize, to the lady or gentleman receiving the
first and second highest vote respectively.

In District No. 3—Same as given in District No. 2.

The Grand Prize. To the winner of a first prize receiving the highest
vote in the entire contest will be awarded a trip for self and one com-
panion; expenses paid, by rail to Green Bay and from there by boat to
the Soo and return.

Special Prizes to be added next week.

RULES AND REGULATIONS.

Candidates in District No. 1 must be members of a church, lodge, club,
labor, literary or social organization holding meetings in the city of Janes-
ville.

Candidates in Districts No. 2 and 3 are not required to belong to any or-
ganization; may be of either sex, but must be at least 16 years old.

The voting will be by ballots clipped from the Daily Gazette and by
voting certificates issued with subscriptions for the Daily Gazette.

Each nomination ballot clipped from the paper will count five votes for
the lady or gentleman named thereon when received at the office before
the date of expiration given on the ballot.

Certificates for either a lady or gentleman contestant will be issued
with receipts for subscriptions as follows:

SAW THEIR WAY OUT OF CASTLE WILLIAM

THREE ARMY PRISONERS ESCAPE FROM OLD BUILDING.

HELPED BY OUTSIDERS

Had Rope Ladder and Take a
Boat to Reach Mainland—
Gen. Grant Orders Inquiry.

New York, June 5.—Sawing their
way through the steel bars of their
cells in Castle William, three army
prisoners escaped from Governor's
island, Tuesday, and have not been
captured. A boat is missing from the
island, and the men carried the steel
window bars with them as weapons.

The escaped prisoners are Henry
C. Turner, R. C. Campbell and Frank
West. They were serving two and
one-half year terms, respectively for
theft, sleeping on post and desertion,
and were confined in the same cell on
the top tier in Castle William. The
men used a rope ladder with which to
escape. They sawed the bars of their
cell; and the fact that they had saws and
used a rope ladder leads the auth-
orities at the island to believe that
the prisoners had outside help, and
Gen. Grant has ordered a rigid investi-

gation.

THE NEW CONSCIENCE

Attorney General Bonaparte believes that the sins of corporations can be most effectively removed by the imprisonment of the individuals responsible for them. Fines will work in many cases, but in others imprisonment is necessary.

The principle which should govern in this matter is that of exact justice. There should be but one law, and one enforcement of law, for the rich and the poor. Before the law the president of a corporation and his humblest clerk should stand on a level. There should be no preferred list in a court of justice. The imprisonment of rich and powerful offenders for gross violation of law would not only have a wholesome effect upon the discontented poor who thinks that the cards of justice are stacked against him.

But let us not move too quickly, or with any spirit of revenge in this matter. Let us not forget that in dealing with the sins of corporations we are dealing with a new class of sins not yet fully classified or understood. Let us remember also that in no small measure we are all responsible for these sins of corporations. We have encouraged and often profited by them. It is only recently that a public conscience developed in regard to them, and it is hardly right to send a man to jail for doing something which a short time ago we would have applauded him for doing. Let it be remembered that while a robbery is now a crime, it was not long ago regarded as merely the wholesale price. The railroad man who is now condemned for owning stock in a concern shipping over his own road was a few years ago praised for doing this very thing, because it served to develop the country.

WALL STREET DIVIDED

President Roosevelt's Indianapolis speech has served at least to bring clearly into view a division of opinion in Wall street regarding the administration policy toward the railroads. It has been assumed that Wall street was uniformly opposed to the President and his plan of railroad regulation. The comments upon his Indianapolis speech, however, made very plain the fact that Wall street is not united in opposition to the President. The speech has indeed intensified the antagonism of those financiers and corporation managers who are opposed to any federal interference in what they regard as their "private affairs." They want to be let alone, and they resent any policy tending to abridge their liberty in any measure. They are opposed, therefore, to government regulation of the railroads and other corporations and profess great fear of the centralization of power in the federal government which it involves, says the Wall Street Journal.

But while the speech has thus intensified the angry opposition of those opposed to government regulation it has, on the other hand, brought clearly into view a large and important element in the financial and railroad world that favors the President's policy. The speech has strengthened the position of this element by its forcible declaration that no action is intended which shall weaken the credit or diminish the fair earning

power of railroad investments. Thus Wall street appears a divided camp. It is, perhaps fair to say that a majority is still opposed to the President, but there is a strong and apparently growing minority which stands for him.

A local teacher recently asked her pupils to say whether they told fibs or not and stand if they did. One boy arose. The rest were seated. It is safe to say that the boy is to be trusted quicker than the rest who remained seated and thereby convicted themselves.

If the Chinese Empire really intends to clean things up in China they should send over to America for the thousands of China boys who run the laundries. They are the fellows to do the work.

June should avoid accepting the near summer article. Just as good as the real article may be excused in May or April, but in June, the month of roses and sweet-girl graduates, never.

MORTUARY MENTION.

William McCrea.

More than five hundred people attended the funeral of William McCrea at the Baptist church in Alton at one o'clock in the church and nearly every part of Rock county was represented. Rev. R. M. Vaughan of Janesville preached an eloquent sermon and song services were rendered by Mrs. Lillian Eddy of Alton and Mrs. George Fatzinger of this city. Six cousins of the deceased acted as pallbearers—Fred Palmer, Floyd Kilmer, Floyd Miller, Frank Miller, Roy Antisdell and Jay Antisdell. The cortege which followed the remains to the cemetery was fully a mile in length.

Mrs. Holt.

Mrs. Holt, mother of Mrs. H. S. Richards, who was formerly Miss Mary Holt, and Miss Harriet Holt, passed away at the Richards home in Madison about a fortnight ago. The Misses Holt taught in the Janesville high school several years and their mother resided here during that period.

4,000 CHINESE ARE KILLED.

Terrible Earthquake at Hsingkiang—Many Are Starving.

Victoria, B. C., June 5.—The steamer Shawmut brought news of the killing of 4,000 persons by an earthquake at Hsing Kiang, China.

A telegram received from Pekin by the Nishi Shimbun at Tokio shortly before the Shawmut sailed reported that 4,000 persons were crushed to death, that a vast number of houses were destroyed, and that many persons were left starving.

Emperor Solved Difficulty.

Frederic Villiers tells this story of the German emperor: The occasion was the marriage of the crown prince of Roumania to Princess Marie, the handsome eldest daughter of the late duke of Saxe-Coburg. After the function the German emperor was the first to give the bridal kiss. He was in full English naval uniform smoothed with decorations, and the bride was dressed in a costume which could not bear much crushing. The kaiser, one could see, was trying to avoid this trouble and the bride was afraid, in turn, to disarrange his mass of decorations. In a moment the emperor was seized with one of his brilliant ideas. He took the pretty blushing bride by the right elbow, tilted her a little toward him, launched himself forward and, bending over her, imprinted the kiss.

CARLOAD OF GASOLINE EXPLODES AT REDDICK, ILL.

Bodies of Victims Are Torn to Fragments—Windows and Chimneys of Town Demolished.

Reddick, Ill., June 5.—Three persons were killed here Tuesday night by an explosion of a car loaded with gasoline. One of the men killed was Fred Hatting, a barber of Reddick. The others were John Frazee and Austin Stockton, both from Danville, Ill.

Ten persons were more or less injured by the burning oil that was scattered in all directions by the explosion. Hal Dowell, of Danville, the most seriously hurt, is not expected to live. The other nine were residents of the village of Reddick and were able to walk to their homes unassisted.

The three men, together with several other persons, were watching three freight cars burn that had become ignited from a hot box on one of the trucks. As the train neared the junction of the Chicago, Indiana & Southern and the Wabash railroads the car with the hot box was derailed, two other cars loaded with oil were also dragged into the ditch, and all caught fire. Next to these cars was another car loaded with gasoline, which caught fire from sparks from the burning cars.

A fearful explosion followed, which broke all the windows in the village and demolished chimneys of houses for miles around. The three men killed, who were standing close to the gasoline car at the time, were blown to atoms and the fragments of their bodies scattered for a hundred yards around.

Fortunately a score or more of villagers who were on their way to watch the fire had not reached the place when the explosion occurred, or there would have been more fatalities.

Taft Outlines Policy as to Reductions in Western Posts.

Washington, June 5.—Secretary Taft has briefly outlined his policy in regard to the reduction of the garrisons in western army posts in the following telegram sent to Senator Clapp, of Minnesota, who had made a vigorous protest against the withdrawal of a part of the garrison from Fort Snelling:

It is not proposed to remove cavalry from Fort Snelling. Squadron of the Fourth cavalry soon to be en route from Philippines will take the place of the squadron removed. So far as the cavalry at Forts Assiniboine and Koogah are concerned, the absence of troops in Cuba and the necessity for concentrating squadrons into regiments require the removal of the squadrons at Forts Assiniboine and Ko

A MAKER OF HISTORY

By E. PHILLIPS OPPENHEIM,

"I scarcely know," Lord Runton answered. "But I can tell you this: There have been three cabinet meetings this week, and there is a curious air of apprehension in official circles in town, as though something were about to happen. The service clubs are almost deserted, and I know for a fact that all leave in the navy has been suspended. What I don't understand is the silence everywhere. It looks to me as though there were really going to be trouble. The Baltic fleet sailed this morning, you know." Duncombe nodded.

"But," he said, "even if they were ill disposed to us, as no doubt Russia is just now, what could they do? One squadron of our fleet could send them to the bottom."

"No doubt," Lord Runton answered. "But supposing they found us ally?" "France will never go to war without Russia's benefit," Duncombe declared.

"Granted," Lord Runton answered, "but have you watched Germany's attitude lately?"

"I can't say that I have," Duncombe admitted, "but I should never look upon Germany as a war seeking nation."

"No, I dare say not," Lord Runton answered. "No more would a great many other people. Every one is willing to admit that she would like our colonies, but no one will believe that she has the courage to strike a blow for them. I will tell you what I believe. Duncombe: I believe that no great power has ever before been in so dangerous a position as we are today."

Duncombe sat up in his chair. The weariness passed from his face, and he was distinctly interested. Lord Runton, without being an ardent politician, was a man of common sense and was closely connected with more than one member of the cabinet.

"Are you serious, Runton?" he asked.

"Absolutely! Remember I was in Berlin for two years, and I had many opportunities of gaining an insight into affairs there. What I can see coming now I have expected for years.

There are two great factors which make for war. One is the character of the emperor himself and the other the inevitable rot, which must creep

like a disease into a great army kept always upon a war footing, through a decade or more of inactivity. The emperor is shrewd enough to see this.

"An alliance with France. Mind, I am afraid that there are insurmountable obstacles, but if it were possible it would be chequered to our friend the emperor, and he would have nothing left but to club down. The trouble is that in the absence of any definite proof of an understanding between Russia and Germany, their preparations seem almost to suggest it. Of course, we outsiders can only guess, after all, at what is going on; but it seems to me that there is a chance to-day for our government to achieve a diplomatic coup."

"In what direction?"

"It sounded like it," Duncombe answered. "Perhaps it is your man."

"Like his cheek, if it is!" Lord Runton answered, rising to his feet and strolling toward the sideboard. "I told him I would telephone round to the stables when I was ready. I suppose it is rather late though. I shan't apologize for keeping you up."

"I hope you won't," Duncombe answered. "I have never been more interested in my life—for many reasons. Don't bother about your man, Groves will see to him."

There was a knock at the door, and the butler appeared.

"There are three gentlemen outside, sir, who wish to see you," he announced to Duncombe. "They will not give their names, but they say that their business is important or they would not have troubled you so late."

Duncombe glanced at the clock. It was past midnight.

"Three gentlemen," he repeated, "at this time of night! But where on earth have they come from, Groves?"

"They did not say, sir," the man answered. "One of them I should judge to be a foreigner. They have a motor car outside."

Lord Runton held out his hand.

"Well, it's time I was off, anyhow," he remarked. "Come over and have lunch tomorrow. Don't bother about me. I'll stroll round to the stables and start from there. Good night."

Duncombe hesitated. He was on the point of asking his friend to stay, but before he could make up his mind Runton had lit a cigarette and strolled away.

"You can show the gentlemen in here, Groves," Duncombe said.

"Very good, sir."

The man disappeared. Duncombe, after a moment's hesitation, crossed the room and, opening an oak cupboard, slipped a small revolver into his pocket.

would be quite powerless to prevent it. The emperor and his ministers have the affair in their own hands. A slight break in our diplomatic relations, some trifles seized hold of by the press and magnified at once into an insult, and the war torch is kindled." Today war does not come about by the slowly growing desire of nations. The threads of fate are in the hands of a few diplomats at Berlin and London, a turn of the wrist, and there is tension which a breath can turn either way. You ask me why the emperor should choose England for attack. There are many reasons. First, because England alone could repay him for the struggle. Secondly, because he is intensely and miserably jealous of our own king, who has avoided all his own hot-headed errors and has yet played a great and individual part in the world's affairs. Thirdly, because England is most easily attacked. I could give you other reasons if you wanted them."

"Quite enough," Duncombe answered. "What do you suppose would be the 'causes bell?'

"The progress of the Russian fleet through English waters," Lord Runton answered promptly. "Russia's interest in such a misunderstanding would be, of course, immense. She has only to fire on an English ship, by mistake, of course, and the whole fat would be in the fire. England probably would insist upon the squadron being detained. Germany would protest against any such action. We might very well be at war with Russia and Germany within ten days. Russia would immediately either make terms with Japan or abandon any active operations in Manchuria and move upon India. Germany would come for us."

"Is this all purely imagination?" Duncombe asked, "or have you any thing to go on?"

"So far as I am concerned," Lord Runton said slowly, "I, of course, know nothing, but I have a strong idea that the government has at least a suspicion of some secret understanding between Russia and Germany. Their preparations seem almost to suggest it. Of course, we outsiders can only guess, after all, at what is going on; but it seems to me that there is a chance to-day for our government to achieve a diplomatic coup."
